Instructions:

1. Cut DSP diagonally both ways to create four triangles, placing them on the white cardstock as shown in picture. I used scotch tape to adhere them together on the backside.
2. Cut a strip of ribbon to 5 1/2" long and using glue dots on each end to attach to the white/dsp layer.
3. Attach the white/dsp layer to the pretty in pink base that has been scored at 4 1/4".
4. Stamp greeting on the white strip of paper with pretty in pink ink.
5. Attach it to the pretty in pink scrap and die cut with the unbounded love framelit.
6. Use dimensionals to attach to the card.
7. Add two pretty in pink shimmer gems to the greeting.
